### **Group Members:**

<b>Student ID</b>	<b>Name</b>	<b>Signature</b>
20-43400-1	S.M. NOWSHAN AL-NAHIN PAVEL	
20-42890-1	MD. GOLAM KOWSER RIAD	
18-36328-1	MD. MEHEDI HASAN NAYAN	

### **Project Title:**

Bookshop: An Online Book Store

### **Short Description:**

Bookshop is a web-based online e-book store with a mission to financially support local, independent bookstores. It has a friendly graphical user interface. Any user can browse the available books as well as see the details of the book on the website. But before ordering a book, he/she must have an account logged in. A visitor can create an account by clicking on the sign up and filling up the form with correct information. There is also an admin access to monitor the website.

#### **System Actors**

There are two actors in our system- admin and user.

#### **Features**

##### **Admin-**

- Add Book Records – Cover, Name, Author, Price, Quantity, Description
- Update Book Records – Cover, Name, Author, Price, Quantity, Description
